Disclosures

Training provided by Intuitive is limited to the use of Intuitive technology, instruments and accessories. It does not replace the necessary medical training and experience required to perform procedures. Before performing any procedure using Intuitive technology, physicians are responsible for receiving sufficient training to ensure that they have the skill and experience necessary to protect the health and safety of their patients. Intuitive technology should only be used by physicians and staff who have received specific training in the use of Intuitive technology. Prior to using any training materials, refer to Intuitive Learning to ensure you are using the most up-to-date revision and that the software version of the training matches the software version installed on your system. There may be instances in which certain training content or activities listed above may not be available. For example, activities that require case history (e.g. videos or observations) may not be immediately available following a new product launch. In those cases, if you wish for additional training, please consult with your hospital and/or work with your Intuitive representative to explore alternative training activities.

For important safety information, indications for use, risks and full cautions and warnings, please refer to the user manual(s) and www.intuitive.com.
